

Multiplication to 100 - maze Δ [4]

Name: _____

Discover the path through the math maze.

Start from the **START** point. Solve the multiplication problem, then choose the path with its correct answer. This way you get to the problem without the given answer.

Give the answer of this math problem.

The maze consists of a grid of cells. The starting point is labeled **START** in a box at the top right. The path is defined by the following sequence of cells:

- Row 1, Column 7: **START**
- Row 1, Column 6: $5 \cdot 5$
- Row 2, Column 6: 18
- Row 3, Column 6: $2 \cdot 8$
- Row 4, Column 6: 16
- Row 5, Column 6: $6 \cdot 7$
- Row 6, Column 6: 47
- Row 7, Column 6: $7 \cdot 9$
- Row 8, Column 6: 19
- Row 9, Column 6: 16
- Row 9, Column 7: $2 \cdot 9$

The path ends at a circle labeled **A** at the bottom left. Other cells in the maze contain multiplication problems and their answers, but they are not part of the path.
